## Main Level

### ❶ BLISSFUL SANCTUARY

Open shelving offers convenient storage for towels and other essentials. Thoughtful design touches enhance the spa-like atmosphere, creating a relaxing retreat.

### ❷ SPACIOUS EASE

Combining the mudroom and utility room was a conscious design choice that results in more overall elbow room. An optional structure for design features can help with adapting to your routine.

### ❸ EFFORTLESS GARAGE

A water heater nook improves parking clearance to reduce everyday friction.

### ❹ SENSE OF ORDER

Walk-in closets in both secondary bedrooms and a large hall linen closet are a treat. Everything in this home has its place, giving you peace of mind.

### ❺ CALM KITCHEN

A walk-in pantry and over 8 ft island offer ample storage for stress-free living. Open shelving provides space away from counters for charging your phone, setting up a small speaker, or displaying keepsakes that add warmth and joy to your home.

### ❻ BUILT FOR YOU

Occasionally, when lot size allows there might be other variations of this home available. Ask your Sales Consultant about outdoor living and other personalization opportunities that tailor to your lifestyle.

## WHAT IS LIFEMADE?

lifemade™ draws on real homeowner data and insights to guide every design and construction decision, ensuring that each home is thoughtfully crafted to be the happiest place in the world.
