Lower Level

1 EFFORTLESS GARAGE

A water heater nook improves parking clearance to reduce everyday friction.

2 ORGANIZED ENTRY

This closet drop zone is designed to minimize clutter right where it starts, bringing peace to the rest of the home.

3 CALM KITCHEN

A kitchen complete with an oversized island and walk-in pantry provides ample storage to ensure stress-free living.

4 ELEVATED LIVING

The standard 12' coffered ceilings in the living room create an open, airy space that lives a little larger than its dimensions.

5 PEACEFUL OUTDOORS

Time outside can boost your well-being, and a covered patio allows you to enjoy the benefits year-round.

Upper Level

1 BLISSFUL SANCTUARY

This primary suite includes a 5-piece bath with a window for natural light and ventilation. The separate water closet adds privacy, while a walk-in closet with its own entrance allows for independent morning routines.

2 PEACE AND PURPOSE

Coffered ceilings are popular for their visual depth, but did you know they can also help with acoustics by absorbing sound? The effect is a calmer space which aids in relaxation.

3 SPACIOUS EASE

The standard utility closet maximizes space in the upstairs hall to provide the proper elbow room without crowding. It delivers the proper function in the most cost-effective way. Check the variations page for other versions of this space.

4 SLEEPING SOUNDLY

Flushing toilets and rumbling laundry machines have been strategically arranged to minimize contact with bedroom walls, especially secondaries that might have children.

5 SENSE OF ORDER

Standard shelving in both bathrooms and a hallway linen closet keep everyday essentials neatly in place—giving you peace of mind.

WHAT IS LIFEMADE?
