## Main Level

### 1 ELEVATED LIVING

11' ceilings in the great room make the space feel larger and more open, adding a touch of luxury that elevates the entire home.

### 2 PEACEFUL OUTDOORS

Time outside can boost your well-being, and a covered patio allows you to enjoy the benefits year-round. The courtyard-style layout enhances privacy and provides protection from the wind during colder months.

### 3 SMARTER LIVING

The short distance between the garage entry, oversized pantry, and kitchen minimizes the toll of carrying heavy groceries which can weigh dozens of pounds.

### 4 EASY ACCESS

A door from the primary suite to the covered patio offers outdoor access for relaxing mornings or evenings — and is a convenient option for letting pets out with ease.

### 5 BLISSFUL SANCTUARY

This primary suite includes a 5-piece bath with a separate water closet for privacy. Plenty of natural light and generous walk-in closet make it feel extra spacious.

### 6 BUILT FOR YOU

Plenty of options and variations throughout the home allow you to enjoy increased functionality and personalized design for your unique lifestyle. Ask your Sales Consultant for more details.

Renderings, floor plans, options, and variations on all pages are computer generated. Actual construction may vary. Pricing, dimensions, exteriors and specifications are subject to change, and depend on construction timelines. Ask your sales consultant for more information.
