1 EFFORTLESS GARAGE

A water heater nook and small storage area improve parking clearance to reduce everyday friction.

2 SMARTER LIVING

From the moment you step in, easily drop off bags, coats, and shoes before swiftly storing groceries in the adjacent pantry and kitchen.

3 CONTINUOUS FLOW

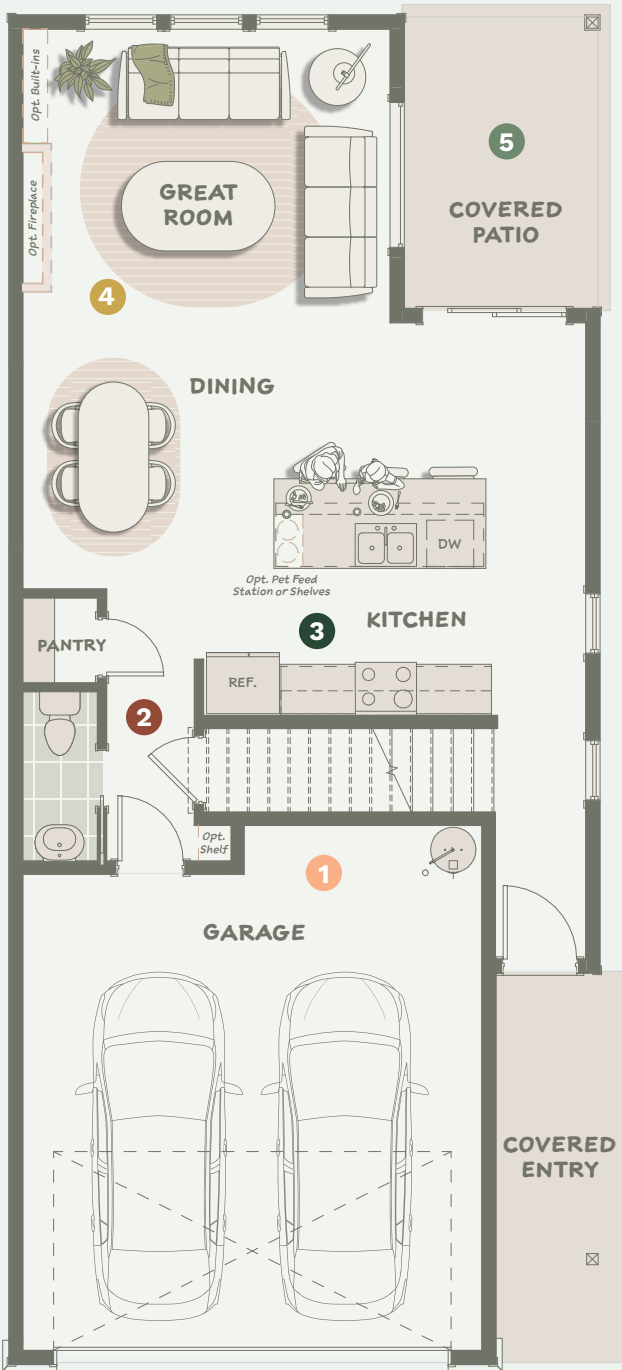

Keep one eye on the outdoors and the other on the great room from the vantage point of this spacious 9-foot island. It's a perfect setup for hosting loved ones. The thoughtful layout encourages interaction, with the sink positioned to face the open space — keeping conversations flowing as you cook and entertain.

4 HAPPY MEMORIES

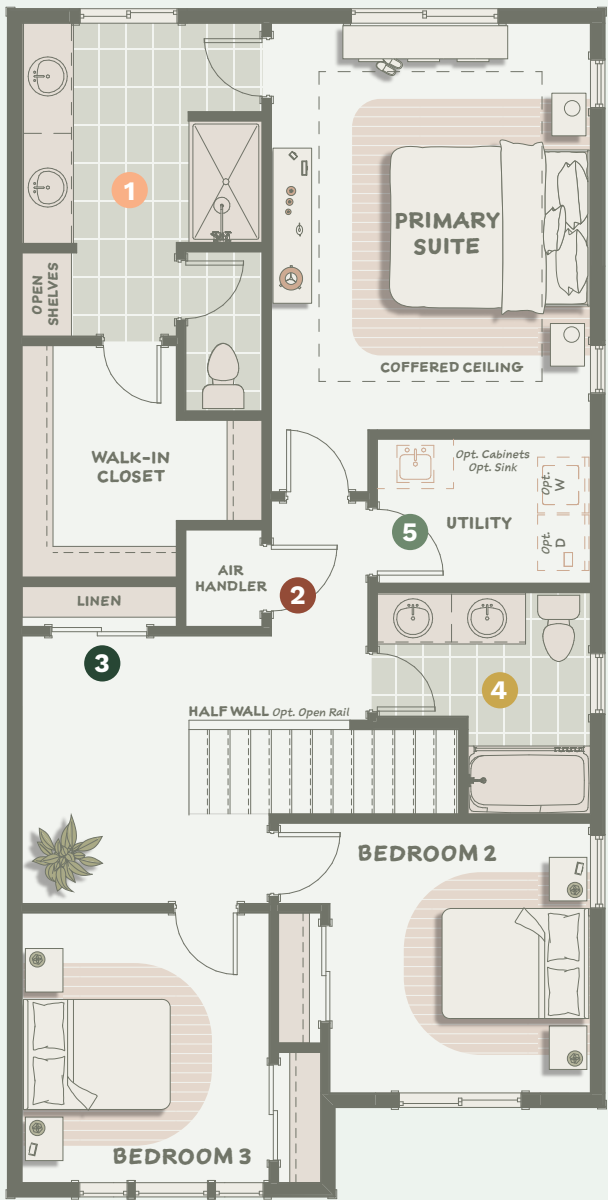

A spacious great room is a treat in this right-sized home. The open flow into the dining and kitchen areas, paired with large windows facing the backyard, creates a space that feels open and comfortable—naturally drawing people together.

5 PEACEFUL OUTDOORS

Time outside can boost your well-being, and a covered patio allows you to enjoy the benefits year-round.

Upper Level

1 BLISSFUL SANCTUARY

This primary suite features an extra-long vanity, a window that brings in natural light, and a separate water closet for added privacy. Ask your Sales Consultant about options for a 5-piece bath to enhance the experience. Open shelving keeps towels and essentials within reach, while thoughtful design touches enhance the spa-like atmosphere, creating a relaxing retreat.

2 SLEEPING SOUNDLY

Flushing toilets, rumbling laundry machines, and the air handler have been strategically arranged to minimize contact with bedroom walls, especially secondaries that might have children.

3 SENSE OF ORDER

An extra spacious linen closet is a treat. Everything in this home has its place, giving you peace of mind.

4 SPACIOUS EASE

There's a lot to love about this spacious secondary bath. The window offers plenty of natural light and ventilation. Just outside, a linen closet is great for storing fluffy towels and other essentials.

5 BUILT FOR YOU

Plenty of options and variations throughout the home allow you to enjoy increased functionality and personalized design for your unique lifestyle. Ask your Sales Consultant for more details.

Renderings, floor plans, options, and variations on all pages are computer generated. Actual construction may vary. Pricing, dimensions, exteriors and specifications are subject to change, and depend on construction timelines. Ask your sales consultant for more information.

WHAT IS LIFEMADE?

Lifemade™ draws on real homeowner data and insights to guide every design and construction decision, ensuring that each home is thoughtfully crafted to be the happiest place in the world.
