Main Level

1 THE HEART OF THE HOME

This kitchen is built to be both functional and encourage gathering. The unique wrap-around design provides a bar for the dining room, or a coffee area.

2 OUTDOOR LIVING

Entertaining is extra fun with this spacious covered patio just off the kitchen. Flowing seamlessly together with the covered patio just off the kitchen, it's easy to serve meals al fresco. Ask your sales consultant about options for outdoor heating!

3 FORM & FUNCTION

This efficient, high traffic area helps keep the first floor clean and organized. From the spacious pantry for dry goods and appliances, to the perfectly placed mudroom.

4 INVITING SPACES

Kick up your feet and relax in the spacious great room. This light and bright room is awash in natural light, making it feel calm and welcoming.

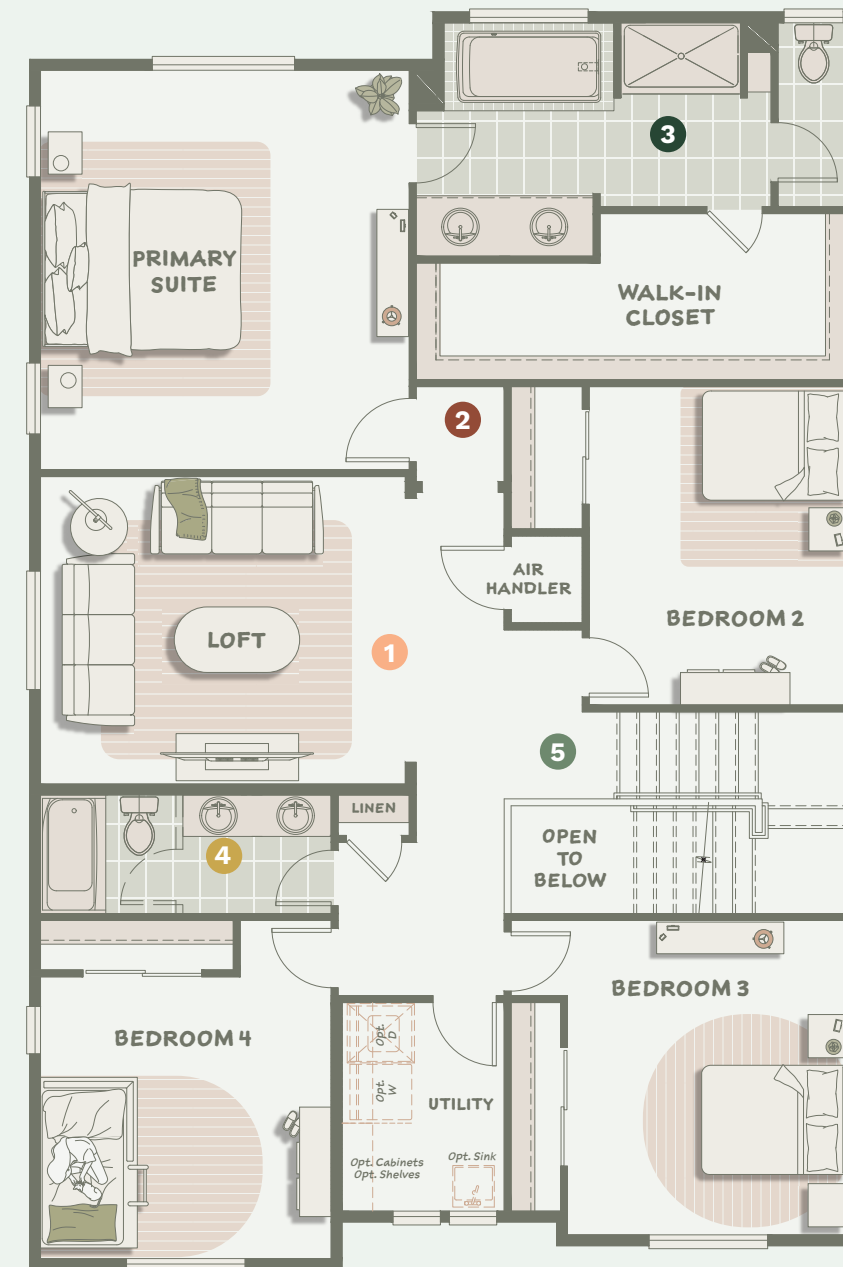

5 FIREPLACE FLOURISHES

Grounding the space in the great room, and sure to encourage cozy gatherings, inquire about all the ways the fireplace area can be personalized to increase eye-appeal.

Renderings, floor plans, options, and variations on all pages are computer generated. Actual construction may vary. Pricing, dimensions, exteriors and specifications are subject to change, and depend on construction timelines. Ask your sales consultant for more information.

Upper Level

1 A FLEXIBLE LOFT

An entertainment room, office or guest bedroom this light-filled loft offers endless possibilities and adds big value to the second floor.

2 RELAXING SANCTUARY

The primary suite's entry alcove offers a sense of separation and respite inviting you to leave your troubles at the door.

3 SPACIOUS PRIMARY BATH

Part efficient bathroom, part perfect place to soak stress away, this primary bathroom features a generously sized closet, open shelving for linens and a functional layout.

4 SPLIT SECONDARY

Designed to improve busy morning routines and keep things calm at bedtime, the split layout makes this a bathroom that's comfortably shared.

5 LIGHT & AIRY

The open area under the stairs and window in the entry help this high traffic area feel light and bright. Creating an effortless transition between floors, the high half wall along the stairs extends the same open feeling up to the second level.
